FEATURES & BENEFITS

Double-Sided

Can be flipped and turned each season for longevity.

Individually Wrapped Coils

Consistent, contouring support with a low-motion transfer feel.

Natural Latex

Body-contouring, breathable support helps relieve pressure on joints for more restful sleep.

Firm Edge Support

Provides additional firmness and durability.

Long-Lasting Durability

Traditionally made with quality materials and thoughtful design.

Clean, Healthy Sleep

Non-toxic, natural materials with no petroleum-based "off-gassing."

Cool Comfort

Natural materials provide breathability for body-temperature regulation.

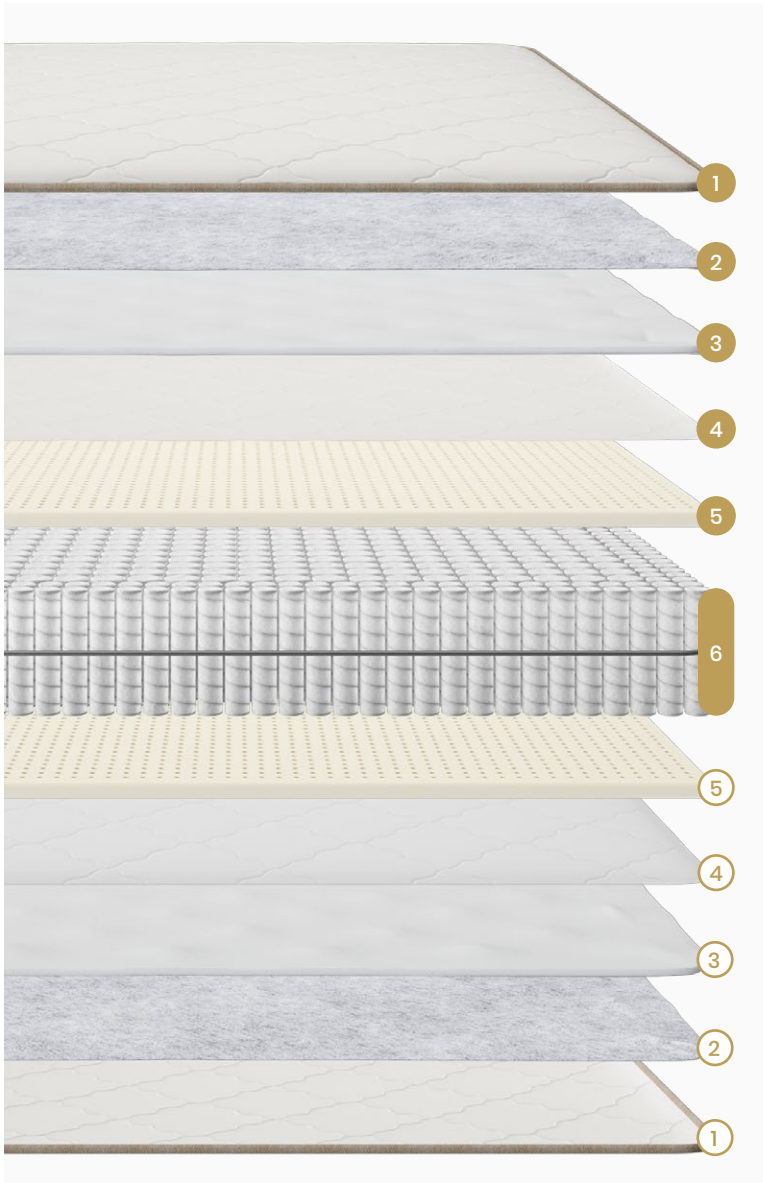

Localized Pressure Relief

Body-supporting comfort provides a responsive sleeping surface for your sleep position and preference.

Uncover Aspen Mattress

THE DOUBLE-SIDED DIFFERENCE

Twice the durability of a single-sided mattress, individually-wrapped innerspring coils with firm support for a motionless sleep experience topped with plush quilted foam & latex on both sides for lasting comfort.

1. DAMASK FABRIC

Woven upholstery provides a durable, luxurious-feeling sleeping surface.

2. PROTECTIVE FABRIC BARRIER

A combination of fire-retardant materials for safety and protection.

3. CERTIPUR-US® CERTIFIED FOAM

Plush, non-toxic foam you can feel good sleeping on. This 1/2" layer, 1.5 lbs. of cushiony softness, relieves pressure points and comforts back and stomach sleepers.

4. QUILTED BACKING

Brings the cushion layers of support together for no-shifting, lasting, consistent comfort.

5. ALL-NATURAL LATEX

1" of soft, plant-based, non-toxic material on both sides of the core. This comfort layer is naturally hypoallergenic, antimicrobial, mold, and dust mite resistant.

100% natural latex rubber comes directly from the sap of rubber trees.

6. INNERSPRING CORE

Traditionally constructed individually-wrapped coils for reduced motion transfer and firm edge support for an expanded sleeping surface, providing greater firmness and enhanced longevity with a responsive feel.
